Dear Mr. Judge,

My Name is Carol Youngman, I'm Richard Trert's Aunt. We call him Richie he was named after his grandpa. I'm 69 years old I've got limpodemia and arthrit's in both knees and ankles. I have to get shots every 3 months in my knees. I can barely make it down my steps anymore it takes 2 people to help me. My guy friend is 73 years old now and was diagnosed found out he has prostate cancer and his problems of his own where he can't hardly help me anymore. I sure need my nephew to come home to help me and around the house. Richie I can tell by the way he talks; and the difference in his attitude. I think he's finally growed up and is done with his past life. If Richie could get one more chance someone to believe in him and I do. Richie was a good kid smart on anything he tried to do and could fix anything if

he had the time to do it.  
He was good in School And Loved  
Basketball. He got a Scholarship to  
College. I love my nephew with  
all my heart. I do depend on his  
help if he gets to come home.  
Take me to Drug grocery shopping.  
I pray he gets to come home. I  
hope you find it, and call you can  
do to help him. I'd be forever  
in your debt. Thank you for  
reading my Letter.
